

MARY'S HARVEST

Healthy-Fresh-Local

VOLUME 4

OUR STORY

Did you know that at Mary's Harvest we're all about family?

And it all begins with Mary Spada, who was well before her time. During World War II, with fifteen-dollars and a vision of feeding her family healthier eating options, Mary began making packages of shredded cabbage and carrots in her home's bathtub.

Mary knew she wasn't the only woman who yearned for better options for her family. Her goal was to come home after a long day at work and see her family smile. She wanted to know where her family's food came from, and that it was fresh, healthy and packed full of nutrition.

Fast-forward 80 years, using Mary's vision of creating quality meals, we established Mary's Harvest Fresh Foods, Inc. in 2012. We continue to develop our hand-cut fruits and vegetables, grab and go, and meal replacement items to give customers the convenience that is healthy, fresh and local.

F O O D S A F E T Y

Mary's Harvest Fresh Foods, Inc. has developed and implemented excellent food safety programs and practices to ensure that we provide the freshest and safest products available to our customers. Our company takes all reasonable measures and precautions to ensure food safety and consistent education and training throughout the company.

The facility operates under FDA, USDA regulations, Oregon Tilth Organic Standard and a HACCP based quality system program that is independently audited by third party institutions following Global Food Safety Initiative (GFSI) – Safe Quality Foods (SQF) standards. Under these rigorous standards, Mary's Harvest Fresh foods, Inc. maintains many pre-requisite food safety programs. We validated the effectiveness of our food safety and quality managements throughout internal and external audit processes recognized Global Standards.

We believe that food safety begins in the field. We monitor our produce continually and only accept product from farmers and suppliers that uphold our philosophy and maintain the unbroken cold chain and good manufacturing practices.
